TOTAL CLEAN

TOTAL CLEAN #2340

Disinfectant, Virucide, Antibacterial Cleaner

TOTAL CLEAN is designed for use as an all-purpose cleaner and disinfectant as a part of regular maintenance programs. It is safe on a variety of hard surfaces found in sports venues, training camps, schools, universities, locker rooms, playgrounds, health clubs, childcare facilities, prisons/jails and veterinary clinics.

TOTAL CLEAN is the first formula ever to carry CA-MRSA kill claims on hard surfaces, including artificial turf. It combines the activity of quaternary ammonium compounds with powerful cleaning agents. It is a one-step cleaning and disinfecting product that saves time and money since it does not need to be rinsed off. TOTAL CLEAN provides broad-spectrum effectiveness against gram-positive and gram-negative bacteria including Community Acquired-Methicillin Resistant Staphylococcus Aureas (CA-MRSA), Vancomycin Resistant Enterococcus (VRE) strains, viruses (including HIV-1, HBV, and HCV), as well as pathogenic fungi including T.mentagrophytes (athlete's foot fungus).

PRODUCT FEATURES

- Kills CA-MRSA (USA 300&400), VRE, MRSA & many more
- Kills SARS Associated Corona Virus
