

# PRODUCT BULLETIN

Date: 12/15/2021  
Product: **Extend-A-Life, Restore, Belt Lube**  
Product Code: 2293, 2271, 2294

Due to a large price increase from our manufacturer, we are implementing a price increase effective immediately for Extend-A-Life, Restore and Belt Lube. This increase will impact all sizes of these products. Please update your price books to reflect the new pricing going forward. Any existing orders that have been approved will be honored at the old price.

In addition to the change in price, Restore 22 oz bottles have been discontinued by the manufacturer. These are being replaced with a quart size bottle. Once the remaining stock of Restore 22 oz bottles has been depleted, we will begin shipping the quart size.

Please also note that due the supply chain issues, our manufacturers are experiencing an increase on the raw materials needed to produce these items. As we continue to navigate the market changes, please be aware that our pricing may be affected again in 2022.
