

# 50 WAYS TO USE PRO KOTE ALL SEASON SURFACE REPELLENT

PRO KOTE creates a protective film between the surface and contaminants which can soil, stain, and interfere with maximum performance and usability. It also protects metal surfaces from rust and corrosion both in use and in storage.

PRO KOTE prevents build-up of grass clippings, dirt, asphalt, snow and more. Apply it to non-porous surfaces such as metal, vinyl, fiberglass, plastic, painted surfaces and enamel. It also prevents graffiti from penetrating surfaces to enable easy removal.

## OUTDOORS

- Street signs
- Dumpsters
- Metal road barriers
- Bus stops
- Toll booth boxes
- Emergency phone boxes
- Fire hydrants
- Truck bodies
- Truck beds
- Newspaper stands
- Trash cans
- Food truck exteriors
