

Oil Safety Can - 1 Gallon SP888801

Type II Safety Can for flammables with stainless steel flame arrester, Safe-Squeeze® handle, and 5/8 flexible metal hose for pouring, Green.

Oily Waste Can - 14 Gallon SP836801

Poly Oily Waste Cans are constructed of high-density polyethylene (HDPE) and offer fire safe temporary storage of solvent rags, waste rags, shavings and other materials subject to spontaneous combustion. Will not rust or dent, are resistant to most chemical compounds, have no seam for a leak proof construction, and feature self-closing lid with foot lever and with a flared base for added stability. FM Approved.
