# **JUST RITE AEROSOL #1275901**

Aerosol Penetrant, Lubricant and Demoisturant

# Features:

- Dielectric Strength 60,000v
- Cleans and protects metal
- Silicone free
- Will not harm most plastics
- Cleans and lubricants air tools
- Stops squeaks
- Removes grease, grime, adhesive and tar

# **Description:**

JUST RITE has a unique formulation that stops squeaks, protects metal, loosens rusted parts and frees sticky mechanisms and yet, unlike similar products, does not harm most plastics. JUST RITE immediately penetrates to free frozen or rusted parts while leaving its protective coating to guard against rust and corrosion.

# **Applications:**

- Rollers
- Switches & Valves
- Frozen BoltsPipe Fittings
- Rusted Parts
- Spark Plugs
- Distributers
  - Doors
  - Windows
- Tools
- Firearms
  - Chrome
- Relays

Locks

- Wheels
- Hinges
  - Wet Engines

· Moving Parts

# **Product Characteristics:**

Physical State:		Aerosol Mist/Spray		
Color:		Clear, amber		
Odor:		Sweet solvent		
Boiling Point/Range:		Not available		
Density		7.64481 lb./gal		
Solubility:		Not available		
Density VOC Less		3437 lb./gal		
H2O and Exempts

#### PERSONAL PROTECTIVE EQUIPMENT:

**Eye/Face Protection:** Wear eye protection with side shields or goggles. Wear indirect-vent, impact and splash resistant goggles when working with liquids. If additional protection is needed for entire face, use in combination with a face shield.

**Skin Protection:** Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over- boots of chemically impervious materials such as neoprene or nitrile rubber is recommended to avoid skin sensitization. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

**Respiratory Protection:** If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers.

#### APPROPRIATE ENGINEERING CONTROLS:

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

#### 10. Stability & Reactivity Information

#### CHEMICAL STABILITY:

Stable under normal storage and handling conditions.

POSSIBILITY OF HAZARDOUS REACTIONS/POLYMERIZATION:

Will not occur.

# CONDITIONS TO AVOID:

Avoid heat, sparks, flame, high temperature and contact with incompatible materials. Dropping containers may cause bursting. **INCOMPATIBLE MATERIALS:** 

Avoid strong oxidizers, reducers, acids, and alkalis.

HAZARDOUS DECOMPOSITION PRODUCTS:

No data available.

#### 11. Toxicological Information

Likely Route of Exposure: Inhalation, ingestion, skin absorption. Skin Corrosion/Irritation: Prolonged or repeated contact with this product may dry and/or defat the skin. This product may be harmful if it is absorbed through the skin. Serious Eye Damage/Irritation: Eye contact may lead to permanent damage if not treated promptly. Liquid or vapors may irritate the eyes. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Eye contact may lead to permanent damage if not treated promptly. Respiratory/Skin Sensitization: Based on available data, the classification criteria are not met. Germ Cell Mutagenicity: Based on available data, the classification criteria are not met. Carcinogenicity: May cause cancer. **Reproductive Toxicity:** Based on available data, the classification criteria are not met. Specific Target Organ Toxicity - Single Exposure: Based on available data, the classification criteria are not met. Specific Target Organ Toxicity - Repeated Exposure: Causes damage to organs through prolonged or repeated exposure. Aspiration Hazard: Based on available data, the classification criteria are not met. Acute Toxicity: If inhaled, may cause dizziness, nausea, upper respiratory irritation, drowsiness, mental depression or narcosis, difficulty in breathing, irregular heartbeats. Chronic Exposure:

	Based on available data, the classification criteria are not met.
	Routes of Exposure: Inhalation, Ingestion, Skin contact, Eye contact al Health Effects – Miscellaneous: Based on available data, the classification criteria are not met.
LD50 (F	2-52-5 MINERAL OIL, PETROLEUM DISTILLATES, HYDROTREATED (MILD) HEAVY NAPHTHENIC Rodent - rat, Oral) : >5000 mg/kg, Toxic effects : Details of toxic effects not reported other than lethal dose value. Rodent - rabbit, Administration onto the skin) : >2000 mg/kg, Toxic effects : Details of toxic effects not reported other than lethal dose value.
l2. Eco	logical Information
ЕСОТО	XICITY:
	Based on available data, the classification criteria are not met. TENCE AND DEGRADABILITY:
PERSIS	No data available.
BIOACO	CUMULATIVE POTENTIAL:
	0064742-52-5 MINERAL OIL, PETROLEUM DISTILLATES, HYDROTREATED (MILD) HEAVY NAPHTHENIC.
	Contains constituents with the potential to bioaccumulate. TY IN SOIL:
	0064742-52-5 MINERAL OIL, PETROLEUM DISTILLATES, HYDROTREATED (MILD) HEAVY NAPHTHENIC.
	Liquid under most environmental conditions. Floats on water. If it enters soil, it will adsorb to soil particles and will not be mobile.
OTHER	ADVERSE EFFECTS: No data available.
	bosal Consideration
DISPOS	AL INSTRUCTIONS: WASTE DISPOSAL: Under RCRA it is the responsibility of the user of the product to determine at the time of disposal whether the product meets
	RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state and local laws. Empty Containers retain
	product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums
	to reclamation centers for proper cleaning and reuse.
14. Trai	nsportation Information
