Quik-Stik is a high performance aerosol adhesive offering rapid setting and quick dry time. Formulated to totally dry clear within 15 minutes. This adhesive is ideal for use on uneven or porous surfaces. This formulation works extremely well on surfaces such as: paper, cardboard, wood, leather, carpet backings, fabrics, most plastics, glass, and many other substrates. **Quik-Stik** is suitable where high temperature may be encountered as well as uses where a clear, flexible, non-wrinkling, waterproof bond is desired.

DIRECTIONS: SHAKE CONTAINER WELL BEFORE USING. This product works best at room temperature. Hold can 6 to 8 inches from surface to be covered. Apply even coats. Do not concentrate in one spot. Permanent Bonds: Spray both surfaces and allow 2 minutes for drying. Bond with firm pressure. When finished spraying invert can and spray until tip is clear of adhesive. If tip clogs soak for 60 seconds in degreasing solvent.
