

Non-Selective Herbicide

Features

- Recommended for use only on non-cropland area.
- Highly recommended for municipal weed control and as a semi-soil sterilant.
- The degree of control and duration depends on the amount of herbicide applied, soil type, rainfall and other conditions

Description

This is a specially formulated, non-selective herbicide that offers total kill control over a wide variety of annual and perennial weeds and grasses. It also offers residual action, making it the perfect herbicide for long-lasting weed control or as a semi-soil sterilant.

Non-Selective Herbicide With Yearlong Residual control:

- Non-cropland areas
- Around buildings
- Industrial sites
- Railroad rights-of-way
- Loading ramps
- Parking lots
- Fence rows
- Storage yards
- Tanks farms

Note: Not for use in any recreational areas or in or around homes

Active Ingredients

2,4-dichlorophenoxyacetic acid..... 1.10%

Bromacil..... 0.61%

Inert Ingredients..... 98.29%

Safety

Caution: Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Keep out of the reach of children.

Directions

Complete directions on product label
Apply one gallon per 1000 square feet
or 43.5 gallons per acre of undiluted
weed killer after the most predominate
weeds have emerged

Authorizations: EPA registered
product.

Product Specifications

Appearance	Reddish brown liquid
Fragrance	Fuel oil
Ready to use	Yes
Physical State	Liquid
Density	Not available
Particle Size	Not available
Boiling Point	Not available
Soluble	Insoluble in water
Vapor Pressure	Not available
Vapor Density (Air=1)	Not available
Specific Gravity (H2O=1, @4°C)	0.875 g/ml
Flash Point	145° F
Transportation information	
Class #	60
Proper Shipping Name	Combustible liquid n.o.s
ID Number	NA1993
Packaging Group	III – Minor Danger
This ships hazard -must ship truck	

Health	2
Flammability	2
Reactivity	0
