

DRAIN MAINTENANCE

Pro Chem offers an entire line of bacterial products that safely speed up the natural decaying process of organic waste and eliminate the noxious gases associated with decomposition. From a clogged kitchen or shower drain to a municipal compost heap, the liquid and powder digestants we provide address the needs of everyone with a drain problem. Your Pro Chem Representative can recommend the correct solution.

BIO DIGEST #2437

Drain Line & Septic Tank Maintainer

- Reduces fog, bod and sludge volume
- Reduces suspended solids
- Fast acting when applied to clogged drains
- Heat resistant up to 180°f
- Has rapid bacteria replication
- Contains 200 billion microbes
- Nontoxic, nonacid and nonpolluting
- Saves money by reducing the frequency of grease trap pumping

BIO-FRESH #2431/2434

Waste Liquefier & Odor Eliminator

- Digests & liquefies waste
- Instantly eliminates odors
- Extremely powerful
- Solubilizes grease
- Activates drain lines & grease traps
- Removes odors from carpeting

DRAIN FREE #2406

Alkaline Liquid Drain Opener

- Not harmful to drains, pipes or glue
- No dangerous mixing needed
- Safer than acids
- Ideal for use on PVC and metal pipes
- Completely non-fuming
- Digests & liquefies waste

FLOW FREE #3420

Citrus Scented, Granular Drain Line Opener and Maintainer

- Dissolves hair (the main cause of most sink and shower blockages)
- Flushes slime from urinal traps
- No fumes – pleasant scent
- Biodegradable
- Will not affect septic system
- Will not harm pipes or fittings
- Restores drains to full flow
- Safe for x-ray drains

LOCK DOWN #2408

Urinal & Drain Treatment

- Floats on top of water, urine and other liquids to create an effective barrier to foul odors
- Locks air out of the drain to prevent odors
- Locks sewer gases and smells in the drain
- Creates a protective barrier between the user and the fluids of the drain, urinal or sump
- Great for use in dry drains
- Will not evaporate in temperatures up to 100°F
- Will not freeze until -14°F
