

PRO CHEM SPOTLIGHT

WELCOME TO PRO CHEM!

Join us in extending a warm welcome to **Nicole Henderson!** Nicole joined Pro Chem in the Orlando, FL territory. With a proven track record in uniform and insecticide sales, Nicole brings a lot of expertise and knowledge to our team. We are looking forward to seeing Nicole's growth and success at Pro Chem. Nicole will be coached by Brianna Holliman. Welcome to the team, Nicole!

Please join us in welcoming **Jenny Ketring** to Pro Chem! She is our new Sales Account Executive in Cincinnati/Dayton, OH! With her background in veterinary sales, Jenny brings her valuable sales expertise with her to Pro Chem. We are incredibly excited to have her join our team and contribute her skillset to our growing success. Jenny will be coached by Lisa Singerman. Welcome to Pro Chem, Jenny!

Product Spotlight: Pro Tools MP Penetrant

Special thank you to Beth Preiser for sharing why her customers love **Pro Tools MP Penetrant!** "Pro Tools MP Penetrant is a great nonflammable lubricant. Customers like it because the can actually says its '**nonflammable**' which is a plus for businesses that have strict policies on keeping flammable aerosols in their facilities. When put up against PB Blaster, Pro Tools MP Penetrant outperforms the biggest competitor in the market. The product also has a dielectric strength up to **30,000 volts**. Pro Tools MP Penetrant is also one of very few products in Pro Chem's line that conforms to **Military Specs**. The product is also **silicone free** and can be used in a wide variety of applications where a penetrant, demoisurant, or lubricant is needed."

Pro Tools MP Penetrant in action!

A great demo for Pro Tools MP Penetrant is to take a Styrofoam cup with water in it and spray the product into the cup. Do the same with PB Blaster. The Pro Tools MP Penetrant will cut directly through the water and create a hole in the cup, showing that in any environment the product will stay on the surface. PB Blaster will not make a hole in the cup and will be dissolved in the water.
