Million Dollar Milestone

Congratulations to Christina Sheppard on hitting the \$1 Million Dollar Milestone! Based in Corpus Christi, Christina has diligently cultivated her territory, forging strong relationships with her customers along the way. Her dedication and hard work over the past five years have been truly commendable. Here's to many more successful years ahead for Christina and her continued contributions to our team!

Happy Retirement!

Congratulations to Maryann on her retirement! Thank you for 23 Years of Service with Pro Chem. Your hard work and dedication is truly unmatched. Join us in wishing Maryann all the best in her next chapter of her life!

Product Spotlight: True Bond Patch

True Bond Patch is a great product that can be sold all year round, however it is great to promote at the end of winter and early spring, when customers need to fix potholes from ice, snow and salt. This ready-mix compound made up of finely graded mineral aggregate and specially prepared asphalt with additives, designed specifically for repairing holes in asphalt and concrete surfaces. It sticks to asphalt without a primer, even in cold, wet conditions. It can also be used on driveways and streets to repair holes.

Pro Chem customers love this product because it is easy to use. All the customer has to do is fill the hole and tamp it. Any large debris should be removed before hand. Unlike competitors' products, True Bond Patch hardens immediately after tamping.

Features:

- Will not harden until compressed
- Long lasting – unaffected by freezing temperatures
- Matches original blacktop surfaces
- Can be used on wet or dry surface
- Easy to apply- no mixing required
- Smaller aggregate allows better fill
- Will not track
- Area can be immediately opened to traffic
- Shelf life of up to 2 years
