

PRODUCT BULLETIN

Date: 4/25/2024
Product: De-Solv All
Product Code: 261705

It has been brought to our attention that the description of De-Solv All on the PIS does not match the information on the SDS. The PIS had not been updated when the SDS was previously updated. The product is a blend of Orange terpenes and Aliphatic Petroleum Distillates. Attached you will find the correct SDS and Product Information sheet which have both been updated on our website.

Thank you to Cindy Breaud for noticing this and bringing it to our attention.
