

PRODUCT BULLETIN

Date: 6/28/2024
Product: Brake Out
Product Code: 129901

As previously mentioned, many of our top selling aerosols had to be sourced from new vendors over the past few years. As many of you are painfully aware, we have substituted nearly 40 different aerosol products but thankfully we are down to the last 10 products to be sourced with new vendors.

We are currently in the process of replacing Knock Out, Coil Brite, Bolt Blaster and Brake Out.

We have now sold out of our inventory of Brake Out and have zero on hand. While we are searching for a viable replacement, please offer your customers **Brake Away II** or **Brake Away Plus**.

We will send out a new product announcement and samples as soon when the new Brake Cleaner arrives.

Thank you for your patience.
