

COIL BRITE – NEW FORMULA #1266701

Aerosol Bio-Enzymatic Foaming Coil Cleaner

Features:

- Bio-Enzymatic action causes breakdown of organic odors and blockages which helps keep drip pan clean and drain line free flowing
- No-rinse formulation
- Increases air flow & unit efficiency
- Reduces energy consumption
- Safely removes grease, dirt, stains & odors associated with mold & fungus
- Non-acid - no harsh fumes

Description:

COIL BRITE is formulated for continuous cleaning. The powerful spray generates a thick foam that removes dirt, lint and grease from air conditioner and heater coil fins. No rinsing required on evaporator coils. Bio-Enzymatic action causes breakdown of organic odors and blockages which helps keep drip pan clean and drain line free flowing. Water-based foam creates no harsh vapors. Clean, fresh scent is carried throughout air handling system. Clean coils improve system efficiency and reduce energy consumption.

Applications:

- Roof Heating & Cooling Unit
- Wall & Window Units
- Refrigerators & Freezers
- Radiators
- Ventilators
- Ice Machines
- Air Conditioners
- Heat Pumps
- Dryers

Product Characteristics:

Appearance:	N/A
Odor:	N/A
Flash Point:	N/A
pH:	N/A
Density:	7.90074 lb/gal
Density VOC:	0.60992 lb/gal
VOC Actual(g/l):	73.08660 g/l
% VOC:	7.71977%
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
Transport Information:	
UN Number:	Limited Quantity
Proper Shipping Name:	Limited Quantity
Class:	Limited Quantity
Packing Group:	Limited Quantity

Directions:

Before using, turn off power. Protect all electrical equipment and parts with plastic or aluminum wrap. Spray area thoroughly with penetrating and holding foam. Foam breakdown and dirt absorption indicates when surface may be flushed clean, if desired. Rinsing not required. For stubborn build-up, a repeat application may be necessary. Can also be sprayed directly into drip pans and drain lines.

NOTE: Initial cleaning of heavily soiled areas may require the use of more aggressive products prior to implementing the regular use of these safer alternatives.
